Encl: 1) Point of Contact List

1. I would like to remind you that prior to graduation; each member of the Armed Forces Health Professions Scholarship Program (AFHPSP) is required to have the following information forwarded to Code OH2 within one year of your graduation date:

a. Commissioning Physical. Per references (a) and (b), you are required to obtain a complete physical examination within two years of superseding to Lieutenant and recall to active duty. If your last physical is over two years old from your expected graduation date, you must get a new Commissioning Physical. If a current Commissioning Physical is not on file in your Health Record, your package will not be released to the NRD for you to supersede to Lieutenant (or Ensign if Nurse Candidate Program) due to you not being physically qualified to enter active duty. Health Records Management Section will notify you via email or phone if you do need a physical. Students who are on Annual Training at or near a Naval Hospital are strongly encouraged to have their physical examination completed during training.

b. Graduation Academic Year Statement. This is to ensure your graduation date is accurate in our pay system database. Historically, about 30% of the AFHPSP recipients do not have correct graduation dates and usually end up underpaid the month of their graduation.
